

Block Island Medical Center

COVID Testing Response Plan

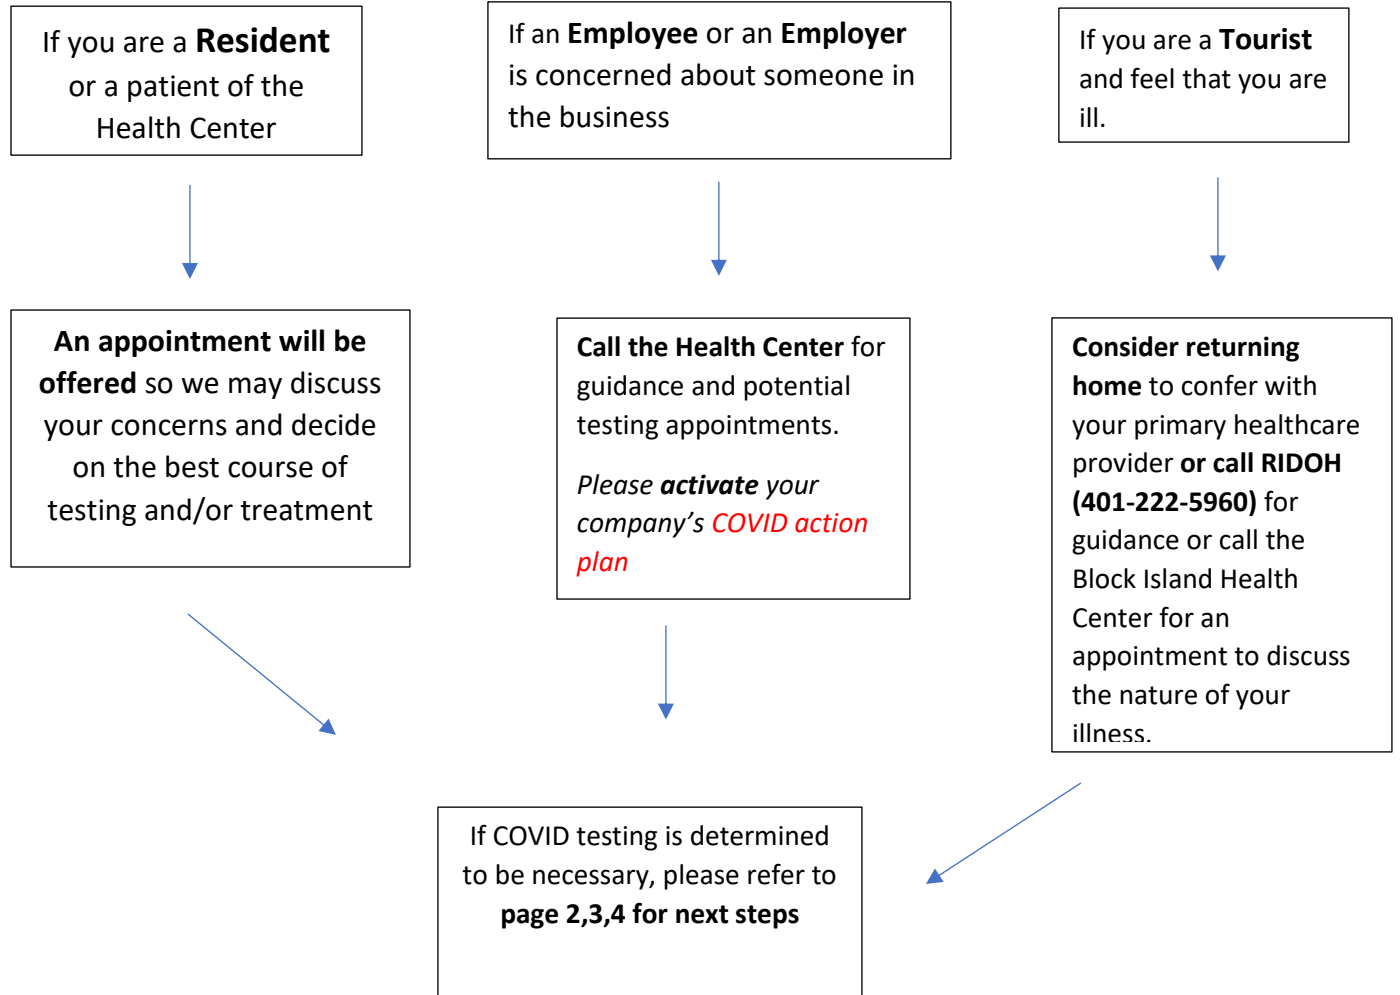

Prepared by

Dr. Thomas Warcup DO, MHA

5/17/2020

What to do if you think you may be ill from or exposed to COVID?

Quarantine from others, wear a surgical or cloth mask, hand hygiene and maintaining social distancing if going to seek medical attention

Please call the Block Island Health Center (401-466-2974 ext 3) prior to seeking assistance so we may keep you and others safe.

If you present to the Health Center prior to calling, you will be asked to return to your vehicle and call us so we may properly screen you before entering for an appointment

COVID Testing Process

COVID-19 VOLUME TESTING SCENARIO

In the event that BIHC is needed for volume testing

BIHC requires coordination with the various entities for scheduling times for patient testing in advance.

If Activated by BIHC:

- Patient will enter the Medical Center parking lot from the east entrance.
- Drive to the Ambulance Ramp in the front (south facing) side of building.
- Patient will remain in vehicle during testing Medical Staff will conduct O2 sat, Temp, and the COVID test.
- Patient will exit the Medical Center parking lot at the west exit
- Only one vehicle at a time should be at the Ambulance Ramp.

- In the event that additional vehicles are waiting in line, vehicles should line up on the shoulder of the road to the east of the Medical Center entrance and wait for the preceding vehicle to exit the Medical Center parking lot before proceeding to the Ambulance Ramp.
